FOUNDATION

WHERE THERE'S A WILL, THERE'S A RUNWAY.

SHARING A VISION

Runway of Dreams is bringing visibility to disability by leading a movement of inclusion, acceptance and opportunity in the fashion industry for people with disabilities. We invite students to partner with us as we expand our programs - programs designed to improve the quality of life for the over one billion people with disabilities with whom we share our world.

WHO WE ARE

Runway of Dreams is a non-profit that works to ensure that people with disabilities have access to fashionable, mainstream apparel that meet both their physical needs and personal style. We live our mission by raising awareness, advocating for change, supporting innovation and providing access to functional apparel for those in need.

Our vision is that one day the adaptive category will be as commonplace as petite or plus size and people with disabilities will have access to fashion that excites and empowers them.

HOW IT HAPPENED

As seen in TED Talks, People, and USA Today, the Foundation was founded in 2014 by Mindy Scheier – a fashion designer and mother of a child with a disability – who envisioned a world where adaptive clothing for people with disabilities was mainstream. After spending 20 years in the fashion industry, Mindy decided to combine her experience and her passion by creating Runway of Dreams.
